- Linux (Ubuntu)

ABOUT ME

As a motivated IT student with a solid programming background and a keen interest in problem-solving, I am eager to apply my skills to real-world challenges. I thrive in collaborative environments and excel at working effectively within a team. With a strong desire to embrace new technologies, I approach tasks with creativity and analytical insight. I am looking forward to gaining practical experience and contributing to innovative IT projects through an internship.

Badulla Central College
A 9' s

PROJECTS

» **Personal Portfolio**
Next.JS

A personal portfolio website showcasing my projects, skills, and experience. It features a modern design optimized for both desktop and mobile viewing, serving as a central hub to highlight my work, professional journey, and the technologies I specialize in.

» **Online Agriculture Store** - **SLIIT ITP Project(group)**
MERN

A platform that allows farmers to sell their products directly to consumers without intermediaries. Customers can purchase fresh products straight from the farmers, ensuring quality and fair pricing. This is a complete e-commerce website designed to facilitate seamless transactions between producers and buyers.

VERSION CONTROL

- Git

PROJECT MANAGEMENT TOOLS

- GitHub
- Trello

- Problem Solving
- Leadership
- Communication
- Creativity
- Team Player

INTERESTS

- Cricket
- Vlogging
- Volunteering
- Teaching
- Hiking / Travelling

NON RELATED REFEREES

PROJECTS (CONT..)

» **Online Farmacy Portal** - **SLIIT IWT Project (group)**
PHP , HTML

An online platform designed to help users easily find and order medicines from pharmacies across the island. Registered pharmacies are part of the system, allowing patients to upload their doctor's prescriptions. Our pharmacists then review the prescriptions and process the medicine orders.

» **Android Car Game** - **SLIIT MAD Project**
Kotlin , Android Studio

An Android car game developed using Kotlin and Android Studio. The game features live scoring and a high score tracker with special notifications when a new high score is achieved. As the game progresses, players level up, the car speeds up, and they must avoid obstacles.

» **Online Help Desk** - **SLIIT OOP Project (group)**
JAVA , MVC architecture

A platform designed to provide technical support from experts. Users can raise a ticket to connect with an expert directly and access a library of technical articles to help solve common issues.

» **Android ToDo List** - **SLIIT MAD Project**
Kotlin , Android Studio

ToDo List , is an Android app developed using Kotlin, Android Studio, and SQLite, designed for efficient task management. Users can add new events, view all tasks, update or delete them as needed. The app offers a user-friendly interface, making it an ideal tool for staying organized and productive.
